

Application Performance Management Workshop

June 17th 2011, UBS Center Basel

Selected experienced specialists of performance, IT Managers and Technology Leaders will actively participate to this workshop, with presentations addressing critical issues and proposing innovative approaches to master application performance from several perspectives: architecture, testing, analysis, monitoring and governance.

By participating, we propose you to be in the center of an international workgroup, aiming at building a platform for the exchange and the promotion of patterns and best practices, and the proposal of standards in the area of application performance.
